

# 1<sup>st</sup> District Energy Climate Awards

Jayen Veerapen, Milou Beerepoot  
International Energy Agency

*District Energy Summit - Copenhagen  
3 November 2009*

# Context

- District energy a key low-carbon solution
  - Integration of renewable energy
  - Education on energy efficiency
  - Integration of CHP, industrial waste heat
  - Use of local resources
- Many cities, campuses using DE around the world
- One of the oldest clean energy technology solutions
- Low recognition of its many benefits

Cogeneration

Cogeneration  
and  
District Energy  
*Sustainable energy  
technologies  
for today  
...and tomorrow*

- Designed to raise the profile of DE as a local energy/climate solution
- Recognises the following:
  - Local leadership
  - Innovation
  - Performance in CO<sub>2</sub> reductions, energy efficiency
  - Vision for a sustainable future
- IEA chaired a panel including:
  - Patrick Blancke, Dalkia
  - Lars Gullev, VEKS
  - Anders Hasselager, Danish Energy Agency
  - Veikko Hokkanen, Helsinki Energy
  - Robin Wiltshire, IEA DHC Implementing Agreement

# Results

- Many, many high-quality systems
  - 27 applicants representing 11 countries
- Exciting innovation, visions for future growth
- Congratulations to all those who participated
- Will feature applicants on event website
