

The European Technology Platform on Renewable Heating and Cooling

Copenhaguen, 26th April 2012– RHC Conference

Pierre Ungemach, GPC IP

The Sun Rises at El Tatio but Never Sets on Geothermal Energy

24 hours around the clock, 365 days over the year

Source : P. UNGEMACH

Agenda

<p>13.30 – 15.00 Session B: Geothermal Technology</p>	<p>Moderation: Pierre Ungemach, GPC IP</p> <p>Recent market developments in geothermal heating & cooling</p> <ul style="list-style-type: none">▪ Burkhard Sanner, EGEC <p>Presentation of the Geothermal Strategic Research Agenda</p> <ul style="list-style-type: none">▪ Javier Urchueguia, GEOPLAT <p>Latest and future developments in geothermal District Heating</p> <ul style="list-style-type: none">▪ Christian Boissavy, AFIG <p>Geothermal District Heating and Cooling in Vienna</p> <ul style="list-style-type: none">▪ Arno Rapottnig, Fernwaerme Wien <p>Discussion</p>
---	--

Conclusions

Recent market developments in geothermal heating & cooling

Presentation of the Geothermal Strategic Research Agenda

Latest and future developments in geothermal District Heating

Geothermal District Heating and Cooling in Vienna

Discussion about technological challenges

Reporting for RHC Panel discussion
